## A PERIODIC TABLE OF VISUALIZATION METHODS

> 🌣 < <b>G</b> continuum	Data Visualization Visual representations of quantitative data in schematic form (either with or without axes)								Strategy Visualization The systematic use of complementary visual representations in the analysis, development, formulation, communication, and implementation of strategies in organizations.									
>©< Tb table	> < < Canada Cartesian coordinates	The use of interactive visual representations of data to amplify cognition. This means that the data is transformed into an image, it is mapped to screen space. The image can be							Metaphor Visualization Visual Metaphors position information graphically to organize and structure information. They also convey an insight about the represented information through the key characteristics of the metaphor that is employed				> > <	Tm temple	St story template	> : <	Et cartoon	
>;>< Pi pie chart	>>< L line chart	Methods to elaborate (mostly) qualitative concepts, ideas, plans, and analyses.						Compound Visualization The complementary use of different graphic representation formats in one single schema or frame				> 🌣 < Co communication diagram	> 🌣 < flight plan	> > < ES concept sceleton	Br bridge	>☆< Fu funnel	Ri rich picture
